6.2.8	<p>Fall of Competitor Knock-down & Fall</p> <p>If there is a knock-down and a fall of Competitor anywhere on the course, together with a disobedience; the bell is rung immediately and However, the clock must be stopped. only When the Competitor has remounted and only if the obstacle has not been rebuilt if it was dislodged, the bell will be rung and the clock restarted in time for the Competitor to continue his test. The Competitor will be penalised for a disobedience and a fall, and six seconds will be added to the time of the Competitor's round.</p> <p>If, when jumping a single obstacle or the last part of a combination, there is a knock-down and a fall of Competitor, the clock must not be stopped and the judge must not ring the bell. The Competitor will be penalised for the fall and for knocking down the obstacle.</p> <p>If, when jumping any element of a combination except the last, there is a knock-down and a fall, the bell is rung immediately. The clock must be stopped only when the Competitor has remounted and only if the obstacle has not been rebuilt in time for the Competitor to continue his test. The Competitor will be penalised for the fall and knocking down the obstacle.</p> <p>If, at the second or third element of a combination, the refusal or run-out is the consequence of a fall with or without a knock-down and/or a displacement of obstacle and/or flag, no penalty is incurred for the disobedience. The 6 seconds of time corrections are not added to his time. The Competitor will be penalised only for his fall.</p>
6.3.6.3	<p>The spread of an open obstacle (e.g. oxer or ditch) is measured from the outside of the rails or other material making up the obstacle on the line where a horse can be expected to jump. The spread of a closed obstacle with a solid top (e.g. table) is measured from the highest point to the highest point on the line where a horse can be expected to jump.</p>
6.3.6.4	<p>Specific Types of Fence.</p> <p>Water. Where a Horse is required to jump an obstacle into or out of water, or where there is an obstacle in water, the depth of water is measured from firm ground where the Horse would normally take off or land. Elsewhere the water should not greatly exceed the maximum depth. In order to discourage a Horse from attempting to jump over it, any water crossing ought to be as long as possible and in any case must be not less than 6m from the point of entry to the point of exit. At obstacles involving water crossings (ford, lake or wide river), the depth of water, from the entrance to the exit must not exceed 35 centimetres. The length of any water crossing must be at least six metres between entry and exit, except where an exit step(s) or fence is jumped directly out of the water, in which case the minimum length must be nine metres.</p>
6.3.7.2	<p>Finish: The last obstacle of Cross Country shall be not less than 20 metres no more than 50 metres from the finishing line. (mandatory for 2018, recommended for 2017)</p>
6.3.9.7 6.3.9.7.1	<p>Circle.</p> <p>At separately numbered obstacles, a Competitor may circle or cross his tracks between or around them without penalty provided he has not presented his Horse at the second or subsequent obstacles.</p>
6.3.9.7.2	<p>At an obstacle composed of several elements (A, B, C, etc.), a Horse will be penalised if it passes around the back of the subsequent element, or circles, or crosses his tracks between subsequent elements.</p>
6.3.10	<p>Penalties</p> <p>Fourth cumulative refusal – BE105 and below - Elimination</p>
